roller specification

kind of roller:

- deflecting roller rotation roller guide roller

roller material:

- steel stainless steel aluminium others

roller surface:

- chrome ceramic Halar(R) others
 rubberised

shore hardness:

temperature resistance °C

surface finish

- turned grinded sand blasted

roller geometry:

- cylindrical convex banana roller others

dimensions:

weight: kg

quantity:

application parameter

roller area

- wet dry glue others

chemical load:

- acid base dissolver others

max. operation temperatur °C

permanent operation temperature: °C

rotation speed: m/s

static charge: ja nein

separately discharged: ja nein

linear pressure: ja nein

material / wall thickness

etching

additional glued
